After a close search patrol was resumed. A further message was received to hunt U/Boat in posn. 50.56 N 04.45 W. and to co-operate with surface forces. Arriving at this position a search was made and radar contact obtained. In losing altitude to investigate or attack possible U/Boat "L" went so low that L/L struck surface and was damaged. A thick sea haze covered the area "L" then set course for base and landed after DG's had been ja-ttisoned.	CHI/05/15AUG & PL/G1/9AUG & G6/12AUG

Capt. made a 180° turn and again contact was picked up at 8 miles. A/C started losing height again and at 3/4 it was illuminated revealing what appeared to be a machine 4-6 ft. above water on 101.50 Deg T. approx 6 kts. leaving quite a noticeable wake. Capt. did not observe contact until it was too late to carry out an attack. A/C then made another turn to port and contact was not regained for forty minutes and then at 7 miles and what appeared to be the periscope was seen by second pilot to pass by under port wing on a course at right angles to course of A/C.
